PRISM FLAGSTICKS

Presenting two ways to make laser distance measuring devices easier to use and more accurate on your golf course. Our Prism Flagsticks integrate the reflecting prisms into the body of the flagstick while our PinSite® Reflector screws onto the flagstick in place of the acorn nut.

- For use with all laser golf distance measuring devices including Bushnell, Laser Link, Leupold, Nikon, Callaway and others.
- Premium glass prisms for maximum accuracy.
- Prism Flagsticks (available in ½ in. and ¾ in. tapered) are machine drilled, allowing precise insertion of prisms.
- PinSite® Reflector is constructed of nylon so threads won't seize to the top of the flagstick.

PINSITE® REFLECTOR

With our patented Pinsite® Reflector, convert any existing flagstick to give precise readings to laser distance measuring devices. Screws in place of acorn nut. Nylon thread prevents seizing to the top of the flagstick.

BIG CUP GOLF

Use Big Cups (8 in. or 15 in.) to grow the game of golf. It's undeniably a great way to attract beginner and junior play. And when used during special events, it can re-attract golfers who may have left the game.

A Big Cup can be used alone, or it can be used in tandem with a regulation cup. By providing these two targets, inexperienced players can play in the same group with more experienced players.

Par Aide offers everything needed for Big Cup Golf, from cups to hole cutters to special tee markers and flags.

THE SAFE-TEE WATER™ FILL-AND-DISPENSE SYSTEM WORKS EASILY

First, the cooler spigot needs a quick conversion to the ${\sf Safe\text{-}Tee}\ {\sf Water}^{\scriptscriptstyle{\top\!\!\!\!\!\!\!\!\!\!\top}}\ {\sf fill\text{-}and\text{-}dispense}\ {\sf system}\ {\sf pinch}\ {\sf valve}$ spigot. Then it's a simple process. The Safe-Tee Water™ fill-and-dispense system is designed to work with tengallon insulated coolers. The fill system consists of a coupler that attaches to a dedicated water supply, a hose and an adapter that connects to the liner's fill tube. Safe-Tee Water™ spigots are ordered separately. They fit on the most common brands of coolers, easily replacing the original spigots. One-use sanitary liners are available in quantities of 200.
