Mounting Options: Multiple options so you can have the right flag, for the right time!

- Plastic Tube: The same tube you've always used just got better! Now featuring a hexagon shape for added strength, these tubes resist the warping and cracking caused by long term use.
- Soft Tube: Used in place of plastic tubes, they are great for reducing noise on the green and even better for tournaments where the flags from the course may be used as give a ways or trophies following the round! Soft tubed flags are also easily framed.
- 3-Hole Grommet:What's the difference? The covered grommet strip features extra fabric that wraps around the • exterior of the

traditional grommet strip to add a slightly more "modern" look to the timeless classic. This allows for material flag saver to be added! Grommet flags make for excellent trophy or souvenir flags as well!

Tubeless: The perfect flag for pro shop, trophy or award flags!

 - Simply add FPTM-Color to your order! Colors available: Augusta (AUG), Black (BLK), Custom (CUSTOM), Maroon (MRN), Navy (Navy), Red (RED).

CUSTOM SIGNS

Our sign department has many years of experience in the design and manufacturing of many different types of golf course and clubhouse signage.

All work is done in house with our focus on long lasting, low maintenance signs that will look great for years. No matter what type of message you need to convey - from large entryway signs to small directional signs, our design and manufacturing team can make it happen.

These dual color A-Frame signs are made of a durable, stain resistant, 1/2" laminated sign board. Messages can be engraved to highlight core color or color filled for your preferred font appearance.

Other features include a handsome engraved outline running along the outer edges of this sign allowing it to "pop" and a convenient handle near the top.
