**TO GENERATIONS OF GOLFERS,
THERE'S NO OTHER BALL WASHER.**

Asked to draw a picture of a ball washer, a golfer would probably produce an image very similar to the photo on this page. What this proves is, the Par Aide Master Ball Washer is literally the picture of an accepted, expected and appreciated part of the golfing experience. Since 1954, it has earned its place by providing reliably excellent results for golfers and easy care for Superintendents and their crews.

1 MASTER BALL WASHER

Here are a few of the ensembles created to make ordering easy for you. With all of these options, you can place your ensemble design where it's most needed. You may opt to put an ensemble with a Club Washer on the tee of a par 3 hole, for example, or one with a Trash Mate® double unit on the tee following the halfway house. Just start with the combination you like and pick a color. If you don't see the combination you are looking for, simply mix and match by choosing the individual items that best fit your situation.

***Note – ground shipping only.**

Because Golfers Notice.

The only thing you have to worry about with our Trash Mate Trash Receptacles is having enough for your golfers. Make sure you have the right amount in the right places. That means doubling up on the first and tenth tees and other high-traffic points, like the tee following the halfway house.

- Polyethylene: impervious to rusting and denting.
- Maximum UV protection added to prevent brittleness and fading.
- Capacity: 9 gal. (34.1 liter) also accepts trash bag liners.
- Windproof, snap-on lids available in three styles, all Black: solid (no opening) to resist pests, trash opening and “Cans Only” opening.
- Convenient attachment to ball washer pipe reduces number of objects to be moved before mowing.
- Flexible design allows you to add a second receptacle for recycling.
- Stackable/nesting design saves storage space.
- Mounting hoops are pre-treated for added protection and then powder coated.

Because Golfers Notice.

Spikeless shoes benefit both golfers and turf in many ways. Still, their most outstanding trait could be the ability to collect lots of grass. For spikeless shoe wearers, shoe cleaners on every hole will improve footing. Complement golfers' equipment with on-course accessories for better playability.

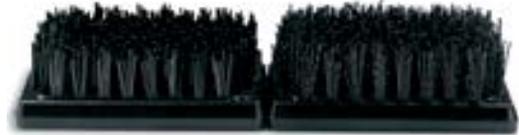

- Bristles made from the toughest nylon fiber available to prevent them from matting down.
- Base is made of Black anodized cast aluminum, so there's no paint to chip.
- More important than ever for on-course use with popularity of plastic-spiked shoes.

- Base brush available with stiff nylon bristles (for traditional steel spikes), or crimped bristles that are softer and denser (for alternative plastic spikes). Both styles are fully interchangeable.

Make an event extra special for golfers by marking the tees with personalized messages. These cube-shaped markers allow you to display whatever you want - whether it's event graphics, the name of the hole sponsor or other information—on four surfaces. This popular capability can be marketed to outside event organizers or used for internal club events. The do-it-yourself decals can easily be printed at your facility using any color inkjet or laser printer. Designed with special adhesive, the decals hold securely, but can be removed leaving minimal residue after the event.

6. Event Tee Markers

Constructed of high-density plastic, each tee marker has four 4-in. x 4-in. "windows" to place decals. Decals sold separately. Stainless steel spike.

Because Golfers Notice.

More than a piece of furniture, a bench is a sign saying, "Welcome Golfers." Insufficient on-course seating is a complaint we often hear from golfers. Surprised? Clearly, if it was a turf issue, you'd probably know about it long before a golfer even mentioned it. But seating is different. Once the round is over, the lack of benches could be forgotten. Still, if your course is heavily walked, adequate seating is a must.

Shown stained with Sashco Natural Stain and clear top coat.

Northern White Cedar is an old growth fine grain log species that flourishes in the cold wet climate of Northern Minnesota. The tight grain minimizes splinters or checking that can happen when exposed logs weather. The natural resins and oils in cedar resists insects, rot and decay. The heartwood is a beautiful tan color that has a deep rich hue when a stain or oil is applied.

Presenting two ways to make laser distance measuring devices easier to use and more accurate on your golf course. Our Prism Flagsticks integrate the reflecting prisms into the body of the flagstick while our PinSite Reflector screws onto the flagstick in place of the acorn nut.

- For use with all laser golf distance measuring devices including Bushnell, Laser Link, Leupold, Nikon, Callaway and others.
- Premium glass prisms for maximum accuracy.
- Prism Flagsticks (available in 1/2-inch and 3/4-inch tapered) are machine drilled, allowing precise insertion of prisms.
- PinSite Reflector, constructed of nylon so threads won't seize to the top of the flagstick.

Because Golfers Notice.

There's a joy to holing out even the shortest putt, and fresh putting cups make it all the better. Greens are where course conditions are defined. Make sure your golfers notice the attention to detail you give your greens by providing clean, fresh cups throughout the season.

The patented Ever-White Cup has revolutionized the putting cup by teaming an aluminum outside with a Bright White plastic sleeve.

- No paint to chip, eliminating the need for stripping, sanding and painting.
- Easily replaceable sleeve stays tight in the cup during play.
- Resonates with the classic aluminum sound when the ball drops in.

Leaders in the golf industry including manufacturers and publications are advancing the idea of using 15-Inch Cups to grow the game of golf. It's undeniably a great way to attract beginner and junior play. And when used in special events, it can re-attract golfers who may have left the game.

The 15-Inch Cup can be used alone, or it can be used in tandem with a regulation cup. By providing these two targets, inexperienced players can play in the same group with more experienced players.

Par Aide offers everything needed for 15-Inch Cup Golf, from cups to hole cutters to special tee markers and flags.

SCREEN-PRINTED FLAG EXAMPLES

EMBROIDERED FLAG EXAMPLES

THE ONLY FLAGS TO FLY

Better materials, superior workmanship and faster delivery make our custom flags a better choice for your course. Par Aide embroidered and custom screen printed flags offer:

- Color-protected fabric for maximum resistance to fading.
- Colorfast thread, specifically designed for outdoor use.
- Reinforced stitching.
- Your choice of tube-style or tie-style (with grommets) - Jr. Flags available in tube-style only.

Our embroidered flags offer:

- 400 denier nylon - this durable, heavyweight fabric resists puckering to give your flag a better appearance. Also very popular with screen-printing.
- Exclusive “reverse bobbed” stitching that provides extraordinary detail on both sides of the flag and eliminates unsightly white threads.
- 2-3 week turnaround time from receipt of approved order.

Our custom screen-printed flags offer:

- 200 denier nylon - this durable fabric is recommended for non-embroidered flags.

LET’S TALK ABOUT YOUR ARTWORK BEFORE WE GET STARTED

Good artwork is essential to get the process started. To accurately price your logo for embroidered or screen-printed custom flags, provide us with an example of your logo. High-resolution vector-based artwork is the best example of your logo. Low-resolution artwork can be used but will require an additional art charge.

ORDERING PROCESS: HIGH QUALITY IS ALWAYS IN STOCK

From start to finish, our step-by-step process makes it easy and convenient for you.

1. Acquire artwork. You need the correct artwork of your logo before we can start.
2. Select flag. Determine flag style, colors and quantity. Twelve-flag minimum for embroidery. Nine-flag minimum for screen printing.
3. Contact Par Aide dealer. Work with your local Par Aide dealer to facilitate a price quotation.
4. Approve quote. Once a purchase order is received, a sample flag or JPEG file will be sent for logo approval when needed/requested. Contact your Par Aide dealer directly if any changes need to be made.
5. Experience the fastest turnaround. Once we have final logo approval, please allow 2-3 weeks for turnaround time.

400 DENIER FLAG COLOR OPTIONS

KEY FEATURE
Unique “reverse bobbed” stitching.

Because Golfers Notice.

A flag's job is to be seen. It communicates the location of the hole, the strength and direction of the wind, and the Superintendent's dedication to great course conditions. So be sure its color is strong and its edges are as sharp and fresh as the line where the fringe meets the green.

Engineered to maintain their good looks despite long exposure to wind and sunlight.

- Improved fade-resistant colors.
- Stronger stitching ensures durability in high winds.
- Lightweight 200 denier nylon construction makes flags sensitive to gentle breezes, giving a better determination of wind direction.
- Heavier-construction, 400 denier flags provide maximum durability.
- Tube-style and tie-style flags are available.

Practice Markers and Flags

Every round starts at the practice green. This is where you can make a great first impression with every golfer, before he or she reaches the first tee. You can set the proper tone by making sure your accessories on the practice green are fresh and match the look of those throughout your course.

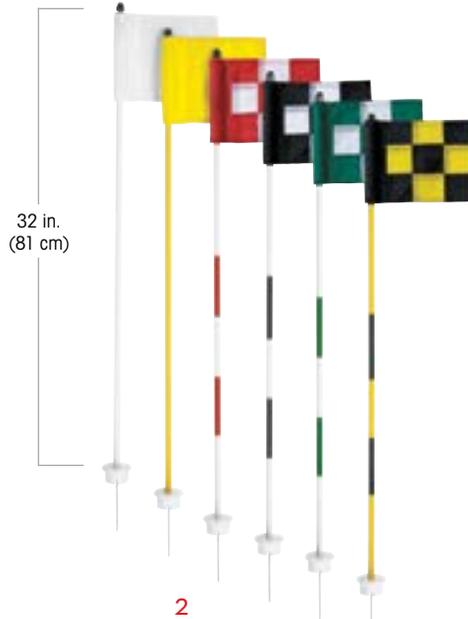

- Practice Green Markers
- Driving Range Distance
- Practice Green Flags
- Practice Ball Storage and Collection

Because Golfers Notice.

Great course conditions start on the practice green. Fortunately accessory upgrades here are highly affordable and their impact can be made overnight. Make sure the first impression made on your practice green is positive and long lasting.

SUPER TIP
Save time and cut fewer holes on your practice green.

Par Aide Turf Marking Paint (bottom) is brighter, more visible than competitor's (top).

The key to marking paint lies in the right nozzle design, which controls the density, brightness and length. Ours provides the perfect combination of distance and visibility. To go one step farther than our competitors, we're offering a safer formulation. Our water-based marking paint is less harmful to all types of turf grass due to reduced VOCs (Volatile Organic Compounds). We ask that you try it out and see the difference for yourself.

THE ART OF HOLE CUTTING TAKEN UP A NOTCH

The best pound-in hole cutter on the market, the HiO Hole Cutter, exclusively offered by Par Aide. Superintendents everywhere have been won over by its precision, ease-of-use and time- and body-saving ability. To operate, simply pull out the pin, lift the handle, and the hammer action drives it into the ground.

Enjoy the following advantages:

- Perfectly round holes with clean edges.
- Easy on arms and shoulders – no twisting required.
- Easy for any crew member to operate.
- Powerful action works great on clay-based “push up” greens.
- Achieve uniform hole depth.
- Saves time.
- Perfect for Bermuda greens, as grain direction is easily matched when replacing plugs

Because Golfers Notice.

It's hard to achieve properly maintained bunkers with poorly maintained rakes. Additionally, splintered handles, missing teeth and loose heads all give golfers less than positive impressions of your course. Annual checks and replacement of worn bunker rakes keeps your supply in top condition and helps you avoid the expense of replacing them all at once.

ACCUFORM DEEP FACE BUNKER RAKE

The extra-long 8 ft. (2.4 m) handle on this rake is perfect for large, deep face bunkers, as it eliminates the need to enter the bunker to perform maintenance. Use this rake to vary your location when raking bunkers to eliminate wear patterns on bunker edges. The long handle, coupled with a 25 in. (64 cm) Accuform Ace II rake head, makes this the ultimate rake for maintaining your bunkers.

ACCUFORM When a turf tool comes from Par Aide, you can be sure it helps the Superintendent and crew work more quickly and effectively. You can also be sure it offers superior functionality, performance and durability. Accuform by Par Aide AccuSeed and Star Spikers improve course conditions in a way only Par Aide products can.

1. Accuform AccuSeed

The New Accuform AccuSeed is the perfect spot seeding tool. The specially designed stainless steel spring loaded spikes puncture the turf 5/16" deep while dropping bent grass seed precisely into the holes, allowing for ideal seed to soil contact. Grass seed is easily filled into the black housing and is only released when the spring loaded head compresses. There is minimal impact to the surface, due to the flat surface of the seed housing, which causes little disruption to play. 43 in. tall (109 cm).

2. Accuform AccuLevel

From spreading to smoothing or breaking up soil before seeding or planting, the AccuLevel is perfect for soil preparation projects of all kinds. Why? It offers the perfect size head: 34-in. x 10-in. plated steel. It's also easier to use because it features a lightweight, sturdy 72-in. aluminum handle, not a heavy wooden handle used on competitive models.

6. Accuform Ball Mark Plugger

This tool helps you remove ball marks on greens quickly and easily. Works great to remove Poa Annua and Goose Grass too. The Ball Mark Plugger removes plugs 1-1/2 in. (4 cm) by 2-1/2 in. (6 cm) deep and comes with 3-1/8 in. (8 cm) rubber washers for shallow plug extraction. The hollow handle holds up to 12 plugs.
31 in. (79 cm) Tall

7. Accuform Weed Puller

Weed removal is easier with the Accuform Weed Puller. It removes the weed and the entire root system to prevent regrowth. Simply center the 3 spikes on the weed, twist and remove with spring-loaded plunger. Made of steel tubing, with replaceable steel spikes that can be positioned different ways to adjust for small and large weeds. Upright handle allows you to weed without bending. Works great on crabgrass, goosegrass, dandelions and all bunch-type weeds and grasses.

8. Accuform Soil Profile Sampler

This exclusive design makes extracting soil samples easier than ever. Our Profile Sampler gives you an undisturbed soil profile 6 in. (15 cm) deep, 3 in. (8 cm) wide and 1/2 in. (1 cm) thick. Hinge allows you to easily view the root zone and thatch clearly, with no bolts or screws to get in the way. The innovative design not only keeps the blades from separating when inserted into the turf, but also makes it easier to replace the sample after viewing.

Choose between two lightweight, durable whipping pole models for removing dew and worm casts from greens.

- Each whipping pole offers two-piece design, with a lightweight anodized aluminum handle.
- Each whipping pole has a durable, 8 ft. (2.4 m) tapered fiberglass tip.
- On our original whipping pole, the handle and fiberglass tip are secured together by two thumb screws.
- On our E-Z Whip design, the fiberglass tip slides inside the handle during storage and transportation and easily extends out for whipping.

GREEN-SAVER™ BALL MARK REPAIR TOOL

Keep your greens in shape with this durable, easy-to-use tool. Our Green-Saver quickly repairs ball marks with one simple step. It utilizes an eight-prong design that moves from the outside of the ball mark to the inside. A simple press of the handle sends the first set of four prongs into action. Then the second set enters the turf at an angle and closes the turf around the ball mark. The base acts like a tamp to flatten the newly repaired area, leaving a smooth putting surface.

Features include:

- Stainless steel parts.
- Self-lubricating bushing.
- Precision laser-cut components.
- Removable tabs on housing that allow for easy cleaning by flushing with water.

4. Away With Geese
7200

Has an effective range of at least 75 yards in any direction (up to 4 acres).

Some pond shapes may require more units to provide complete line-of-sight coverage.

SUPER TIP
Start with key ponds and expand from there.

AWAY WITH GEESE – A LONG-TERM SOLUTION

Our safe, humane, environmentally friendly goose-repelling system wins over more Superintendents every year. The unit is solar powered and emits an amber-colored light, disrupting the sleeping pattern of geese, ultimately encouraging them to move to a new location. It also keeps geese from congregating during molting season, migration and many other times of the year. A single unit effectively protects an area of four acres, working continuously each night with no maintenance. For added durability, Away With Geese offers a one-piece roto-molded design, using fade-resistant ABS plastic. This improves the look of the device while making it impervious to any kind of abuse and able to stay in water year round. There is simply no other method available that measures up in effectiveness, safety, cost or reliability.

- When Away with Geese is used over the course of 1-2 seasons, you will notice a dramatic decrease in goose population on the ponds you equip with this product.
- Please note: While Away With Geese will be very successful as part of a long-term solution for geese control, results may vary as it is impossible to predict how each individual goose will react to this system.
- Replacement parts available. Contact dealer for details.

THE SAFE-TEE WATER FILL-AND-DISPENSE SYSTEM WORKS EASILY

First, the cooler spigot needs a quick conversion to the Safe-Tee Water fill-and-dispense system pinch valve spigot. Then it's a simple process. The Safe-Tee Water fill-and-dispense system is designed to work with ten-gallon insulated coolers. The fill system consists of a coupler that attaches to a dedicated water supply; hose; and adapter that connects to the liner's fill tube. Safe-Tee Water spigots are ordered separately. They fit on the most common brands of coolers, easily replacing the original spigots. One-use sanitary liners are available in quantities of 200.
